INDEX

BEATTY, SAMUEL. Derivation of the Complementary Theorem from the Riemann-Roch Theorem, ... 257

BUCHANAN, DANIEL. Oscillations near an Isosceles-Triangle Solution of the Problem of Three Bodies as the Finite Masses Become Unequal, ... 41

BULLARD, J. A. On the Structure of Finite Continuous Groups, ... 430

CAMP, BURTON H. Multiple Integrals Over Infinite Fields, and the Fourier Multiple Integral, ... 311

CARMICHAEL, R. D. On the Asymptotic Character of Functions Defined by Series of the Form $\Sigma c_n g(x+n)$, ... 385

CARSLAW, H. S. A Trigonometrical Sum and the Gibbs' Phenomenon in Fourier's Series, 185

CHITTENDEN, E. W. On the Equivalence of Relations $K_{q_1 q_2 m}$, ... 263

COHEN, TERESA. A Comitant Curve of the Plane Quartic, ... 221

COX, LEWIS C. The Finite Groups of Birational Transformations of a Net of Cubics, . 59

FISCHER, CHARLES A. Equations Involving the Partial Derivatives of a Function of a Surface, ... 123

FORT, TOMLINSON. Linear Difference and Differential Equations, ... 1

GRAUSTEIN, WILLIAM CASPAR. On Two Related Transformations of Space Curves, . . 233

GREENHILL, G. The Potential of a Lens, and Allied Physical Problems, ... 335

HART, WILLIAM L. Linear Differential Equations in Infinitely Many Variables, . . . 407

HILTON, PROF. HAROLD, AND MISS R. E. COLOMB. On Orthoptic and Isoptic Loci, . . 86

KIRCHER, EDWARD. Some Properties of Certain Finite Algebras, ... 272

KÜSTERMANN, W. W. Fourier's Constants of Functions of Several Variables, ... 113

LOVITT, W. V. Some Singularities of a Contact Transformation, ... 27

MANNING, W. A. The Primitive Groups of Class 15, ... 281

MILLER, G. A. Possible Characteristic Operators of a Group, ... 404

MITCHELL, HOWARD H. On the Asymptotic Value of Sums of Power Residues, . . . 425

MORRISON, F. M. On the Relation between Some Important Notions of Projective and Metrical Differential Geometry, ... 199

MURNAGHAN, FRANCIS D. The Lines of Electric Force Due to a Moving Electron, . . 147

RIDER, PAUL R. The Space Problem of the Calculus of Variations in Terms of Angle, . 241

ROBINSON, L. B. A New Canonical Form for Systems of Partial Differential Equations, 95

SOUSLEY, C. P. Invariants and Covariants of the Cremona Cubic Surface, ... 135

WELLS, MARY EVELYN. On Inequalities of Certain Types in General Linear Integral Equation Theory, ... 163

YOUNG, ARCHER EVERETT. On the Determination of a Certain Class of Surfaces, . . . 75
